

National Events

Important

National Events are events that can be competed at the regional, state and national level. The National Competitive Events Guide can be downloaded from the Total TSA dashboard once your chapter has finalized affiliation with National TSA. These rules and requirements may be modified at the state and regional levels. Details on what national events are offered and how they are managed at the Texas state conference are posted on the Event Guidelines.

Attendance at the State Conference is required of any students competing in this category.

Important: Ignorance of the rules and/or misunderstanding of the rules as run at the State Conference is not an excuse for a protest or additional consideration.

Rules Modifications

Due to time limits and other extenuating circumstances, Texas TSA reserves the rights to make modifications on how it conducts National Events at Texas TSA State Contest. Individual event coordinators must have any such modifications approved by the National Event Managers at State Contest. These may include the following:

1. Shortening the contest time or interview time allowed
2. Only having 1 round for public performance style events
3. Limiting the number of teams interviewed in the final round

Rule modifications should be procedural only and not affect the intent of the competition rules.

For the 26-27 contest year, Tier 2 will be the top twelve teams and Semifinals will be the top ten unless stated otherwise in the event guidelines. All other modifications to national events are listed in the Texas State Event Guidelines.
